

STX835

Dual 15" Slot-Loaded
Three-Way
Speaker

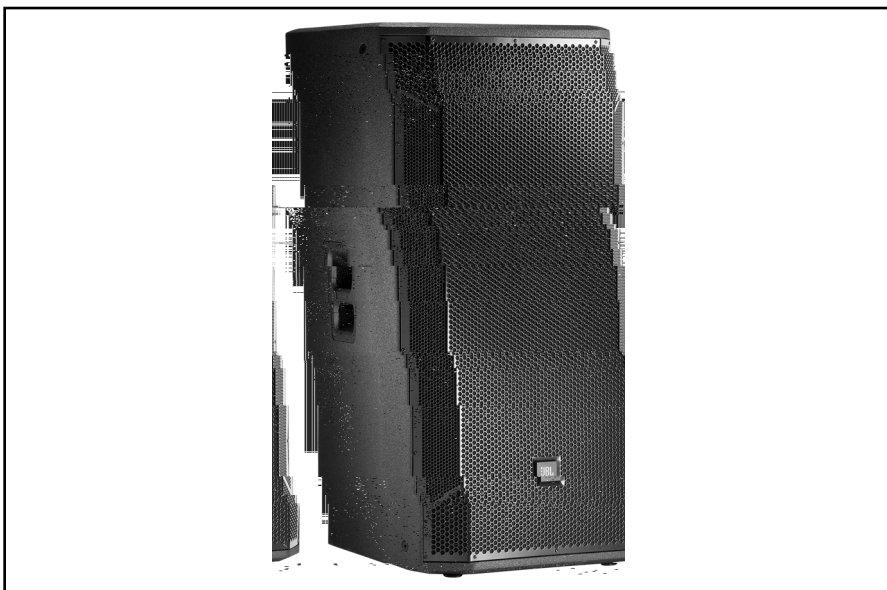

Key Features:

- ▶ Premium passive loudspeaker system
- ▶ Very high power handling
- ▶ Two 380 mm (15 in) Vented Gap Cooled™ low-frequency drivers, in slot-loaded LF configuration
- ▶ CMCD™ Cone Midrange Compression Driver™ provides low midrange distortion, increased sensitivity, extended bandwidth and improved phase coherence.
- ▶ 60° x 40° coverage.
- ▶ Bi-amplified or full-range passive operation.
- ▶ Twelve M10 suspension points

Applications

- ▶ Reinforcement of vocal and instrumental music requiring low frequency extension
- ▶ Dance music playback

The STX835 combines the performance of a subwoofer-equipped system with single-enclosure ease of use. The dual slot-loaded 2226H 360 mm (15 in) patented Vented Gap Cooled™ woofers deliver impressive low-frequency extension without a sub. The mid-range is covered by JBL's patented CMCD™ Cone Midrange Compression Driver™ technology using
